Internship Announcement
Wasatch Community Gardens

Community Garden Outreach Intern

Organizational Background
Wasatch Community Gardens is a community-based nonprofit that has served the Salt Lake County community for 25 years. Since our founding in 1989, we have provided opportunities for individuals to grow their own food in urban gardens. We also provide educational opportunities to youth and adults. Our mission is to empower people of all ages and incomes to grow and eat healthy, organic, local food. Wasatch Community Gardens supports the growth of new and existing independent community gardens across the greater Salt Lake area through resources, education and networking opportunities.

Garden Development Intern
Wasatch Community Gardens is looking for up to two individuals to assist with the community outreach and organization of some of our community gardens. Interns will work closely with Wasatch Community Gardens’ Garden Coordinators in all aspects of starting new community gardens or furthering the development of existing community gardens: to help promote and advertise the gardens, develop partnerships with neighborhood resources (churches, schools, businesses, etc), assist garden organizers during and between planning meetings, perform database work, and attend site workdays.

The ideal applicant has a passion for promoting organic, urban gardening, and local food systems; is detail-oriented and organized; and enjoys working with others to facilitate positive interaction and learning.

This is a great opportunity to work with a respected community-based nonprofit, and gain extensive professional experience and valuable resume-building skills.

Internship Details
Available for Spring 2015
5-10 hours a week, with flexible scheduling.

To Apply
Send a cover letter explaining your interests and background, a writing sample, and your resume to:
