

Environmental Education @ Wheeler Farm Intern - Paid

Wage: \$12/hour

Position Title: **Wheeler Farm 4-H Youth Science Intern**

Position Summary: Utah State University is opening up a new center at Salt Lake Historic Wheel Farm. The Center will focus on Agricultural, and Environmental Programming. This seasonal intern position will assist Salt Lake County 4-H staff in developing and implementing educational programs to expand 4-H Environmental STEM programming at Wheeler Farm. This is a 29 hours per week, mainly located at Wheeler Farm, but may include other 4-H events and may require availability on some evenings and weekends.

Responsibilities:

1. Work with Salt Lake County 4-H and Wheeler Farm Staff to develop and implement non-formal science based programming, which requires working with youth and adult volunteers.
2. Help design and build environmental science educational stations for public and youth camper access.
3. Run 4-H Environmental Education Programs for youth (day camps, field trips, etc)
4. Inventory, organize and purchase 4-H supplies and science education resources.
5. Ability to work some nights and weekends.

Minimum Qualifications:

1. Reliable & professional with effective oral & written communication skills.
2. Exceptional organizational skills
3. Excellent interpersonal skills and ability to work well with public and youth.
4. Self-motivator with ability to work with minimal supervision.
5. Ability to effectively balance multiple tasks simultaneously
6. Ability to transport self and materials to points around the county.

Preferred Qualifications:

1. Experience working with youth.
2. Experience teaching
3. Experience working with Volunteers.
4. Strong computer literacy and technology skills
5. Science based education
