

Foster's Refillery

Business overview:

Foster's Refillery is an online refill delivery service. We help cut down on single-use plastics-- rather than throw away empty shampoo bottles, cleaning bottles etc, customers can refill with us. Inspired by the milkman model, Foster's refills and delivers household goods right to the customer's doorstep. We bike products, weather permitting, to patrons' residences, and shoppers can purchase one of our containers to fill, or refill one of their own.

Our products are eco-friendly, never tested on animals, and many of them are made from local Utah creators. We know the power for good local businesses can have in their communities, and so we try to champion other small businesses as often as possible.

Time Requirements:

- Beginning of May to end of August.
- Monday, Wednesday, and Friday mornings, and some weekends
- About 8-10 hours a week-- schedule can be somewhat flexible.
- 135 hour commitment

To Apply:

- If you are interested, reachout to info@fostersrefillery.com.
- Send resume
- Send cover letter

Work overview:

We are a small start up, so your contribution will be vital to operations. That also means, however, that the work can be grueling, labor intensive and not the most glamorous.

A large part of intern daily responsibilities involves fulfilling orders. That includes preparing orders, managing the inventory and warehouse space, and doing deliveries. We also constantly need content for our social media. Interns will be tasked with creating quality content.

Lastly, Foster's is attending some farmer's markets this season. On the days we are attending local markets, we will need intern assistance

This is a great opportunity for someone who is eager to cultivate their marketing and entrepreneurial skill sets with a business focused on sustainability. We need someone who is hardworking, creative and trustworthy.

Tasks broken down:

- Inventory/ bookkeeping
- Preparing orders
- Sending payment requests
- Organize supply room
- Picking up inventory
- Picking up inventory
- Refill deliveries
- Helping with the farmers market
- Content creation
- Picking up supplies
- Helping with product photography
